PERSONAL PROJECTS

Odd n Even (04/2020 – 05/2020)

- Odd n Even is a game built on pure HTML CSS and JavaScript where the user needs to click buttons or press keyboard arrows(desktop) or swipe(mobile) to tell if a number is even or odd. Working Game: <https://oddneven.netlify.app> source code: https://github.com/AyushmanBilasThakur/Odd_N_Even

QuotesApp (01/2019 – 04/2019)

- QuotesApp is an app where you can share your own creative and innovative quotes. Check out at <https://ayushmanbilasthakur.github.io/QuotesApp/>

TapTimer (05/2020 – 05/2020)

- A stopwatch app made in Angular to keep recode of what you are doing and how much of the intended tasks you have done. This app was made in collaboration with a senior and a junior of my college. I integrated the design with the main logic. <https://productivity-stopwatch.netlify.app/>
